

TECHNOLOGY LAB HELP NEEDED

Parent Volunteers are needed to assist students in the computer lab on a **weekly or bi-weekly basis**. Students come to the lab once a week and volunteers help students with their projects under the direction of our technology teacher Mrs. Trail. Monday, Tuesday and Thursday mornings, time slot from 8:15 – 10:30. One point is given for each 1.5 hours worked.

Our curriculum includes instruction in keyboarding programs, internet access, word processing, and various age appropriate software packages.

Come join the fun this year as we continue to explore the computer and its widening uses in our world today.

****NO EXPERIENCE IS NECESSARY**, learn as you go with the children in the class. Any questions email dtrail@stgregorythegreat.org.
