

# CALCULATOR NEWS

Dear Parents of Children in Grades 3 - 8,

The Diocese of Trenton requires all students in grades 3 through 8 to use calculators for the Terra Nova tests that will be administered in the spring. Therefore, students will need to be proficient in the use and appropriate applications of calculators at their grade level.

To insure consistency in instruction, and to take advantage of large quantity discounts, St. Gregory's has ordered calculators for all students in grades 3 and 4 to purchase. The following lists the calculator model and price:

| <u>GRADE</u> | <u>MODEL</u> | <u>PRICE</u> |
|--------------|--------------|--------------|
| 3 & 4        | T-108        | \$ 6.00      |

We would appreciate your prompt remittance in an envelope marked "CALCULATOR" with your child's name, grade, and homeroom returned to school by **September 15, 2017**. There is also the option to return a used calculator for credit toward the purchase of a new calculator. In order to receive credit for a returned calculator, it must be fully functional, clean and returned by **September 8, 2017**. A coupon will be issued for the credit amount. Please include the coupon in your envelope with payment for the difference. There are also a limited number of used calculators available at half price on a first-come basis. **Grades 5- 8 were required to purchase the TI-34 model on their own, however, we do have a limited amount of used calculators available for purchase.** If this additional expense presents a hardship, please call the office so that we may be of assistance.

We thank you for your continued support and cooperation as we work together for our children.

Peace and every blessing be yours,

*Mrs. Michele Rivera*
