Updated COVID-19 Protocols

As of May 11, 2022

1. COVID-19 Positive Student – A student who tests positive for COVID-19 will have a FIVE (5) day quarantine. The date that symptoms begin is considered Day 0. **Beginning with Day 6, the student may return without further testing as long as he or she has been symptom-free for 24 hours.** The student **must wear a mask on Days 6 & 7** at all times except while eating and engaging in strenuous physical activity. On Day 8, COVID-19 protocol is over for the student, the Precaution Period is over for the household, and no further masking is required.

2. COVID-19 Positive Household Member – A student whose household member tests positive may completely avoid quarantine by testing negative using a COVID-19 rapid test each morning for SEVEN (7) days after the patient's Day 0. **The student must remain symptom-free during this time period, AND must wear a mask during the seven-day Precaution Period.**

Testing MAY occur at home; however, the test result must be brought to school in a sealed sandwich bag marked with the student's name, date, and homeroom. If there is a refusal to test each morning and/or wear a mask during the Precaution Period, the student must remain out of school during this period.

3. COVID-19 Close Indoor Contact – Same procedure as "COVID-19 Positive Household Member."

In all cases, please contact the Main Office or Dr. Briggs to report the case and for further instructions.
